For over ten years, TYR Tactical® has designed the best tactical belts in the industry. We were the first to introduce a Tactical Belt with ½ inch MOLLE/PALS webbing, the original Gunfighter® Belt, which is still the industry standard today.

We provide a full range of solutions for any mission and gear configurations. From our Low Profile Uniform Belts to our armored XFrame® Dynamic Load Carriage® System and much more.

Our most recent game-changer is the Modular Assault Belt – MAB. It combines a low-profile load carriage belt, the ability to add additional armor, and ergonomic design. The MAB is the new industry standard!
