REPLICA WEAPONS

INERTPRODUCTS.COM ▶ +1 (570) 341-3751 ▶ Toll Free: +1 (855) 559-2707

Our solid dummy training weapons are manufactured using extremely durable urethane based materials. These replica training rifles include full length metal barrels, creating a new level of realism as well as unmatched durability.

We produce our replica weapons using various highly advanced machinery and state-of-the-art production methods. This gives us the ability to produce large volumes in record time. Our exclusive line of replica products set a new standard in training and we've set the bar extremely high.

All solid replicas are available in a variety of colors including blue, red, and black.

(replica ammunition)

RPG REPLICAS

ITEM#: OTA-RPG7L

Our RPG replicas are made from urethane materials specifically designed to be highly detailed yet extremely durable, allowing for effective training from the classroom to the battlefield.

The replica RPG rockets are 100% inert, and the modular design allows the rockets to quickly adjust to any stage using shipping plugs, rocket boosters (found on pre-fired rockets), and tailfin assemblies (found on fired rockets).

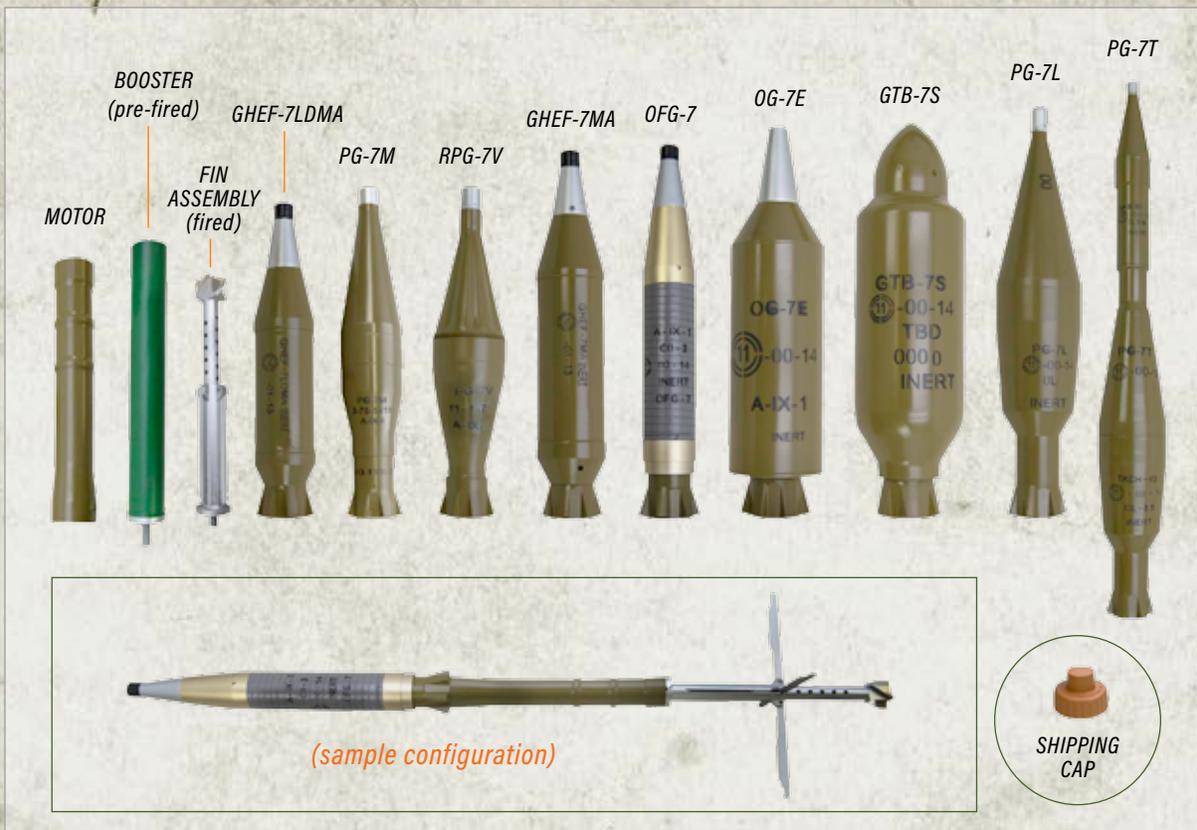

Removable warheads and rocket motors can be mixed and matched to create a custom kit to match any training scenario. All RPG-7 replicas will fit tightly into our Inert Replica RPG-7 Rocket Launcher.
