HIGH LOFT JACKET & PANT FR

The finest layers available for the coldest weather, our FR High Loft use GORE® PYRAD® fabric for FR protection without any sacrifice in cold/wet weather performance. Combined with PrimaLoft®'s Silver Active insulation, the warmest per ounce US made synthetic insulation for superb breathability. More breathability means more comfort and fast 'baking dry' of internal layers.

SIZES: XS-XXXL

ACTIVE FLEX JACKET

The Active Flex hybrid soft shell was designed with the mobile warrior in mind. Using Climashield Apex advanced insulation bonded to a quick drying stretch liner, the Active Flex works with you in the field. Durastretch soft shell exterior is treated with DWR and Near-IR for ultimate protection. With two hand warmer pockets set up high, inside chest pocket and a fully adjustable helmet compatible fitted hood, the Active Flex provides tremendous performance in any setting. Exceptional breathability prevents moisture build-up making it a perfect option on its own or an essential piece to any layering system.
